

PAST EVENTS

2025 Gordon Research Conference

With 106 attendees, the conference was a great success again!

SPECIAL ANNOUNCEMENTS: ICS MENTORING PROGRAM

Dr. Radtke (mentee) and Dr. Moran (mentor) joined our **ICS Mentoring Program** launched last year by the ICS, in which early-career ICS members were paired with senior mentors in the ICS community.

Just a few months ago, Dr. Radtke received a very promising impact score on the prestigious MOSAIC K99/R00 Pathway to Independence Award from the NIH. Dr. Radtke will implement carotenoids as a biomarker for dietary intake in the primary care setting to support health-related behavior changes.

Dr. Moran met regularly with Dr. Radtke to provide critical feedback and expertise during the writing process that greatly improved the quality of Dr. Radtke's grant submission.

JOB POSTING

Please email us if your lab is hiring, we will announce it in our next newsletter and website

CONTRIBUTE TO OUR NEWSLETTER

In a new ICS effort to help distribute information about the broad field of carotenoids, we would like to gather pertinent information from the ICS members for each issue of the newsletter. If you would like to share something with the ICS members, please **[email us](#)**.
